DESCRIPTION OF THE EVENT

The test was conducted on June 21, 2023 during IHA Period at backfield. The test was designed to assess and evaluate an individual's visual perception, attention to detail, and memory retention skills. The test consisted of a series of Objects that were displayed randomly in the court. Students took a lane and observed the objects for 30 Minutes, then the students were asked to recall and write down as many objects as they could remember. The test was scored based on the number of objects that the students were able to recall correctly.
